Summary

Data Analyst with **3 years** of experience in **credit and risk analytics**, **data management**, and large-scale **reporting & insights**. Specialized in the data and analytics supporting regulatory **Expected Credit Loss (ECL)** estimation under the **CECL** and **IFRS 9** frameworks and **CCAR** capital adequacy; skilled at orchestrating **ETL workflows**, strengthening **data governance**, and delivering insights that drive Finance, Modeling, and Technology decisions.

Experience

AMERICAN EXPRESS - Credit & Fraud Risk

Gurgaon, India

Analyst, Regulatory Risk Data Management & Capabilities

Aug 2023 - Apr 2026

- Spearheaded **10+ critical risk-event impact assessments** spanning customer linkage changes, variable-centric logic, and data risk events, safeguarding **\$13M+ (87%)** of the reserve for the Commercial portfolio by pinpointing root-cause drivers and instituting long-term remediation strategies adopted across teams.
- Championed the analytics and data strategy to integrate **Extended Payment Terms (EPT)** into the data feeding **Gen 7 CECL** Commercial models across US and international markets, sharpening loss-forecast accuracy for **12,000+ Card Members**, eradicating high-risk manual provision adjustments, and trimming downstream partner effort by **20%**.
- Architected the **Analytical Data Layer (ADL)**, a fully automated **17TB+** Google BigQuery pipeline powering **Probability of Default (PD)**, **Loss Given Default (LGD)**, and **Exposure at Default (EAD)** model development, eliminating manual intervention and slashing external audit risk by **50%**.
- Owned **CECL Model Performance Tracking (MPT)** and back-testing execution end-to-end as sole maintainer, deploying ad-hoc features and parameterized inputs for zero-manual-intervention quarterly reporting, slashing manual effort by **80%**.
- Drove CECL/IFRS 9 **data governance** and reporting execution across multiple data layers, monitoring and resolving **540+ data quality alerts** raised on model input variables and prioritizing them by business impact to safeguard regulatory model integrity.
- Engineered a bespoke macroeconomic **data pipeline** supporting the **CCAR 2025** stress-testing model, enabling precise capital adequacy calculations across the full portfolio suite.
- Automated an end-to-end **Quality Control (QC) reporting** pipeline for model development data and ADL updates, surfacing audit-ready trend files that armed Finance partners with decision-ready insights and pared their effort by **10%**.
- Migrated **10+ scripts** and intermediate tables housing **5TB** of regulatory data from legacy Cornerstone to the **GCP-based LUMI** platform, future-proofing scalability and governance for portfolio risk analytics.

Associate Intern, Corporate Regulatory Data Management

Jan 2023 - Jun 2023

- Elevated the **Forecasting and Sensitivity Tool (FAST)** by revamping the UI, authoring technical documentation, and engineering a variable sensitivity feature with Excel/CSV upload for custom input tuning, while establishing **GitHub-based version control** for the codebase, propelling a **15% increase** in tool usage across Finance and Modeling stakeholders.
- Optimized distributed data processing code for large-scale datasets, compressing runtime from **48 to 6 hours (87.5% reduction)** and catalyzing FAST's formal adoption by the Enterprise Technology team.

Education

Vellore Institute of Technology (VIT), Vellore

2019 - 2023

B.Tech in Computer Science & Engineering (Information Security); CGPA: **9.30/10**

Tamil Nadu, India

Skills & Tools

Programming, Big Data & Cloud: Python, SQL, HiveQL, PySpark, Jupyter Notebook, Google BigQuery, Airflow 3.0, Docker

AI & LLM Tools: Claude API, Pydantic, LangChain, LangGraph, OpenAI Console

Tools & Methodologies: Git, GitHub, JIRA, MS Office (Excel, PowerPoint)

Others: Data Analytics/Visualization, Risk Management, Compliance & Stakeholder Management, Problem Solving

Achievements & Awards

Analyst of the Quarter | Q2'24 for Model Performance Tracking.

Star of the PI | Q4'24 and Q3'25.

Merit Certificate, VIT Vellore | Academic Year 2019-2020.
