Summary

Data Analyst with 3 years of experience in **data management**, **credit and risk analytics**, and control oversight for regulatory **Expected Credit Loss (ECL)** models and capital adequacy frameworks (**CECL**, **IFRS 9**, **CCAR**). Drives large-scale **ETL workflows**, strengthens **data governance**, and reduces audit risk for Finance and Modeling stakeholders.

Experience

AMERICAN EXPRESS - Credit & Fraud Risk

Gurgaon, India

Analyst, Regulatory Risk Data Management & Capabilities

Aug'23 - Apr'26

- Conducted 10+ **risk-event impact assessments** on credit loss provisions, including customer linkage changes, variable-centric logic, and data risk events, influencing over **\$13M** in AXP reserves; designed long-term mitigation strategies.
- Led development of a custom **macro-economic stress testing pipeline** for the **CCAR 2025** model, enabling accurate capital adequacy calculation across portfolios.
- Spearheaded **CECL/IFRS 9** data governance and reporting execution, orchestrating **ETL workflows** across data layers and analyzing **540+** **data quality alerts** on inputs feeding regulatory models.
- Integrated **Extended Payment Terms (EPT)** into **Gen 7 ECL** corporate models across US and International markets, improving loss-forecast accuracy for **12,000+** **Card Members** and cutting downstream partner effort by **20%**.
- Designed the **Analytical Data Layer (ADL)**, an automated pipeline generating **17TB+** of model development data for **PD, LGD, and EAD** models using **Google BigQuery** and stored procedures, reducing manual intervention and external audit risk by **50%**.
- Engineered an automated pipeline for generation, scheduling, and email distribution of **Quality Control (QC) reports** on model dev data and ADL updates via **Excel**, cutting Finance partner effort by **10%** and producing audit-ready files for trend analysis.
- Served as sole maintainer for **CECL Model Performance Tracking (MPT)** and **back-testing** execution; deployed ad-hoc features and parameterized inputs for zero-manual-intervention quarterly reporting, slashing manual effort by **80%**.
- Migrated 10+ scripts and intermediate tables housing **5TB** of regulatory data from legacy **Cornerstone** to the **GCP-based LUMI** platform, ensuring scalability and governance for portfolio risk analytics.

Associate Intern, Corporate Regulatory Data Management

Jan'23 - Jun'23

- Built capabilities for the **Forecasting and Sensitivity Tool (FAST)** - enhanced UI, authored technical documentation, and implemented a **variable sensitivity feature** with **Excel/CSV upload** for custom input tuning - driving a **15%** increase in tool usage across Finance and Modeling stakeholders.
- Optimized **distributed data processing** code for large-scale datasets, reducing runtime from **48 to 6 hours (87.5% reduction)**; enhancements led to **FAST's** formal adoption by the Enterprise Technology team.

Education

Vellore Institute of Technology (VIT)

2019 - 2023

B.Tech in Computer Science & Engineering (Information Security); CGPA: **9.30/10**

Vellore, Tamil Nadu, India

Sir Padampat Singhania Education Centre

2019

Senior Secondary (CBSE - Class XII); Percentage: **97.0%**

Kanpur, Uttar Pradesh, India

Skills & Tools

Programming, Big Data & Cloud: Python, SQL, HiveQL, PySpark, Jupyter Notebook, Google BigQuery, Airflow 3.0, Docker

AI & LLM Tools: Claude API, Pydantic, LangChain, LangGraph, OpenAI Console

Tools & Methodologies: Git, GitHub, JIRA, MS Office (Excel, PowerPoint)

Achievements & Awards

Analyst of the Quarter | Q2'24 for Model Performance Tracking.

Star of the PI | Q4'24 and Q3'25.

Merit Certificate, VIT Vellore | Academic Year 2019-2020.
